The Facts:

- HIV infections are rising in older adults.
- People ages 50+ accounted for 17% of new Philadelphia HIV/AIDS cases in 2010.
- Over 38% of people living with HIV/AIDS in Philadelphia are over 50.
- Condoms prevent sexually transmitted diseases, not just pregnancy.
- Providers don't talk to older adults about sexual health.
- If you have unprotected sex, you are at risk for HIV infection.
- If you ever used injected drugs or shared needles, you are at risk for HIV infection.
- HIV testing is free and confidential.
- Call 267-940-5515 for testing information.

Stay Protected!

- Use condoms
- Get tested every 3-6 months
- Get your partner tested
- Lower your number of partners
- Use clean needles
